About Me

Junior Data Scientist with strong critical thinking, mathematical foundation and programming skills.I have strong knowledge in data analytics, computational modelling and data visualisation. Experienced in data analysis and solving real-life problems with machine learning and deep learning models.

Work Experience

Private: 2016 April - 2018 February Math and Physics Tutor

Internship: 2018 March - 2018 October Automative Engineer in ONIKS Tashkent factory

Educational Background

Sep 2014 – June 2018 Tashkent State Technical University. I am holder of Automatical Engineering diploma.
Oct 2018 – Jan 2020 I continued my study at lazarsky University in economics for master degree but due to quarantine and personal reasons, I had temporarly stopped my study.
Jan 2022 –Present Epicode School as Data Scientist.

Skills

Python | Pandas | Numpy | BeautifulSoup | Seleneium | Matplotlib | Scikit-learn | Pytorch | NLP OpenCV | Streamlit | Django | SQL HTML | CSS | Docker | BOOTSTRAP | PostgreSQL | Spark Hadoop

Certificates

Epicode Modul0 C1   **Epicode Module0 C2** **Pirple-Python**   **Kaggle-Python**

Kaggle-Pandas   **Kaggle-Intro Machine Learning**

Kaggle- Intermediate Machine Learning **Kaggle-Data visualization**

Languages

English – Fluent,   Polish – Basic,   Russian – Fluent,   Uzbek-Native
